## FIVE HELD IN WILSON KILLING

By Telegram to The Freeman.

London, June 24.—Five men and a woman of mystery were held by Scotland Yard today in connection with the assassination of Field Marshal Sir Henry Hughes Wilson, while their recent movements were checked.

The two killers, James Connelley and John O'Brien, have retained counsel, and are going to make a fight for their lives, although both readily admit that they shot the field marshal to death.

Thirteen persons who were arrested in raids have been released. Scotland Yard has given out no information regarding the prisoners, who are still held and there is much speculation regarding them, especially the woman.

Royal Moore Boat Co. 1.

Friday evening at Haabrouck Park the Royal Moore nine defeated the Co. 1 team by a 9 to 3 score, in a happy and interesting contest. Battery for the Royal Moore, Kieffer, Sticher and Woldam, catcher. For the losers, Preston and Manning, catchers and Norton, catcher.

## KATO MAKES BIG MOVE AS PREMIER

By Telegram to The Freeman.

Tokio, June 24.—The Japanese cabinet has decided upon immediate evacuation of Siberia by Japanese troops, it was announced today.

The decision is now under deliberation by the Diplomatic Board.

If the diplomatic board approves, it will mean a master stroke for the new premier, Admiral Kato.

Fighting between Japanese troops and Red soldiers was reported from Souchen. The Reds are said to have been dispersed with severe losses.

**TRANSPORTATION GUIDE**

The June issue of the Kingston Transportation Guide is now being distributed by the Chamber of Commerce and every store in the city should apply for and keep on hand a supply of this little folder. Railroad, steamboat, ferry and motorbus time tables are given; also location of stations, piers and terminals. There are 13 motorbus lines, five railroads, three steamboat lines and one ferry included in the guide.

## GEORGE WASHBURN DIES AT HIS HOME

Brick Manufacturer Was Well Known in Financial, Fraternal and Social Circles and Assembly Recognized His Ability—A Personality That Won Staunch Friends.

THE HON. GEORGE WASHBURN.

The Hon. George Washburn died suddenly this morning at his home on West Chestnut street at one o'clock. Mr. Washburn's health began to fail him about a year ago but it was hoped that he would improve. Everything that was possible was done for him.

He was born November 1th, 1868, at Glasco, N. Y. His father was John Tyler Washburn and his mother Emma Searles. He was married on the 18th day of January, 1893, to Eleanor Hutton and ever since that time has resided in the city of Kingston and made this his home. He had been actively engaged in the manufacture of brick and at the time of his death was a member of the firm of U. F. & J. T. Washburn whose yard is at East Kingston. At one time he was vice-president of The Hutton Company and managed its plant. Mr. Washburn has always been interested in the welfare of the city and has done much to further its interests. At the time of the epidemic in the fall of 1918 Mr. Washburn gave up his business and went to the army and acted as nurse to those who were afflicted.

At one time he was a director of the Rondout National Bank; served as a member of the board of education for a number of years, and a director of the Greater New York Brick Company. He was also a member of Kingston Lodge, No. 10, of Masons, Mt. Herib Chapter and Cyprus Temple; also a member of Kingston Lodge, No. 550, B. P. O. E., Twelfth Street Club and Kingston Club. He also served as a member of the assembly and at that time was a member of the ways and means committee, that being the most important committee in the assembly. This was an unprecedented thing as no member of the assembly served on this committee during the first year. He was appointed on this committee on account of his business qualifications, his executive ability being recognized by the parties in power.

He is survived by his widow, Eleanor Hutton Washburn, a brother John T. Washburn who resides at Saugerties, N. Y., and a brother Ward S. Washburn who resides at Flatbush, N. Y.

Mr. Washburn was a man of a very kind and generous nature, not given to show but doing many charitable acts that no one ever knew about. During the war he was interested in all the drives, looking after not only the men who went to the war but their families as well. George Washburn's personality was dominated by a genuine democracy, human sympathy and impulsive generosity. He had a host of friends and will be greatly missed in the community.

## IN POLICE COURT.

One Taxi Driver Arrested—A Speeder Caught.

Albert Pellier, a taxi driver, was arrested Friday afternoon by Officer Carle on a charge of violating the taxi ordinance in soliciting fares standing more than five feet from his car. Pellier pleaded guilty and explained that the express company had the sidewalk so blocked that people could not pass and crossed to the other side of the street, and in order to attract trade he had to violate the ordinance.

Judge Schirick took that fact into consideration, and discharged him with a warning, however, that the ordinance should not be violated by him in the future. The taxi drivers are to notify the police department whenever the sidewalk is blocked and an officer will see that it is cleared.

Richard O'Connor of New York was arrested for speeding by Officer Soper on Friday and gave cash bail for his appearance later in court.

An Auto Collision.

Daniel Fitzpatrick reported to police headquarters this morning that his car had struck a New York Telephone Company car at Broadway and O'Reilly street. No one was injured and neither car was badly damaged.

## WM. ROCKEFELLER, CAPITALIST, DIES

Pneumonia Claims Brother of John D. at 81. Despite All Efforts of Specialists.

By Telegram to The Freeman.

Tarrytown, N. Y., June 24.—William Rockefeller, brother of John D. Rockefeller, died here early today of pneumonia. He was in his 81st year.

Mr. Rockefeller was one of the most powerful and most noted capitalists in the United States. He was director of a large number of corporations and his counsel is said to have carried more weight than any other business man in New York city. Despite his advanced age, his faculties were alert and normal and he was able to conduct business affairs up to his last illness.

Mr. Rockefeller was interested in a number of railroads, gas companies and banks. Among the companies of which he was director, were the New York Central Railroad, the Delaware, Lackawanna & Western Railroad, the Consolidated Gas Company and affiliated concerns, the Brooklyn Gas Company and the Anacosta Copper Company.

Mr. Rockefeller was ill at his Pocomtuck Hills estate which is near the estate of his brother, John D. Rockefeller. Despite the constant attention of specialists, Mr. Rockefeller sank during the night, dying at 6:30 o'clock this morning.

Mr. Rockefeller was born at Richmond, Tioga county, New York. He was the son of William Avery and Eliza Davidson Rockefeller. He was educated at Oswego and began his business life as a bookkeeper. His fortune, like that of his brother John D., was made in oil. He was married at Cleveland, Ohio, to Miss Almira Geraldine Goodsell in 1864. Mrs. Rockefeller died two years ago. At one time William Rockefeller was head of the Standard Oil Company of New Jersey, the "parent" of the Standard group.

## BETHANY CHILDREN'S DAY, FIRST REFORMED SERVICES

Bethany Chapel will observe Children's Day at 2:30. Mr. Boeve will give a talk to the children. The evening service is omitted and the congregation is invited to the high school auditorium to hear the sermon to the graduating class.

The First Reformed Church, Lucas Boeve, minister. Morning service, 10:30; Bible school, 12 o'clock; Christian Endeavor meeting, 7:15.

Mr. Boeve's morning subject will be "The Relation Between Egoism and Altruism."

Thursday evening at eight o'clock will be the service preparatory to the communion on Sunday, July 2. Elders' meeting will be held at nine o'clock Thursday, to welcome new members into the church. Letters of transfer may be presented to Mr. Boeve or to any member of consistory during the week.

## FOUR CONSTABLES KILLED IN IRELAND

By Telegram to The Freeman.

Belfast, June 24.—Four Irish Republicans were killed today in battle with constables near Cushendal, county Antrim. Several others were wounded. The constables were ambushed, but fought so desperately that the attackers were put to flight.

Visits to Masonic Homes.

Mr. and Mrs. Joseph W. Frankel, Miss Kitty Montross and Miss Dora Ohley of Saugerties, visited the Eastern Star home at Onondaga and Masonic home and hospital at Utica, over the week-end. The trip was made in Mr. Frankel's car.

Band Rehearsal.

The Citizens Band will have a rehearsal at the Elks Club tomorrow morning at 10 o'clock.

## REGENTS' OVER; COMMENCEMENT

Friday at the high school finished the program of regents' examinations and as far as corrected the papers are very satisfactory and gratifying, the pupils receiving high marks in various studies.

Arrangements are completed for the commencement exercises to be held next week in the auditorium. Beginning Sunday evening at 8 o'clock the baccalaureate address will be delivered by the Rev. Frank B. Seeley, pastor of the Fair Street Reformed Church, at which time members of the congregations of the different churches throughout the city will participate.

On Monday evening, Class Day exercises will be held beginning at 8 o'clock. The program is as follows:

President's address, Blair Muller. Class orator, Arthur S. Flemming. Class elocutionist, Margaret N. Roddy. Address to faculty, Carl D. Schantz.

Class historian, Katherine Dean. Class critic, Richard O. Gruver. Class poet, Florence A. Henry. Class prophecy, Ethel Schwab. Advice to juniors, Thomas Rowland.

Junior response, Kenneth LeFever.

Class legacy, Anne Byrne.

At 8:15 o'clock Tuesday evening, the annual commencement exercises will be held and will consist of the following:

Ethelwynne Scott Harrington, "Soar Higher."

Dorothy Kennedy, "Words."

Florence Stone, James Whitcomb Riley, an appreciation.

Mary Elizabeth Swart, "A Universal Voice."

Kenneth W. Hasbrouck, "The American Dollar."

Frederick D. Schroeder, "The Value of Higher Education to the Business Man."

John H. Tremper, "The United States as a World Power."

Donald Whiston, "The Independence of Capital and Labor."

Wednesday afternoon at 2:30 o'clock at the auditorium the grade commencement exercises will be held. A large number of pupils completed the eighth grade this year. Closing the week's activities will be the senior dance on Wednesday evening in the gymnasium.

Principal Lewis has requested the seniors of the graduating class at the high school not later than 7:40 Sunday evening.

Following the sermon the tickets for commencement will be distributed among the candidates for graduation honors, and the instructions for commencement will be meted out.

## BADGES FOR MAIL CARRIERS.

45,000 City and Rural Ones Must Wear Numbers.

By Telegram to The Freeman.

Washington, June 24.—Every city and village mail carrier in the United States—and there are about 45,000 of them—will be required to wear a badge bearing the number of the carrier's route and the name of the post office under an order issued by First Assistant Postmaster-General Barlett.

The small metal plate may be attached to the cap, it was explained, or otherwise prominently displayed. The carriers will be obliged to pay for the badges themselves, the department estimating that about 15 cents is a fair price for such an adornment.

## WILLIAM ROCKEFELLER'S WEALTH.

By Telegram to The Freeman.

Tarrytown, N. Y., June 24.—The fortune of the late William Rockefeller was estimated today at from \$150,000,000 to \$200,000,000. The bulk of his estate is understood to consist of Standard Oil securities.

## By Telegram to The Freeman.

Berlin, June 24.—Dr. Walter Rathenau, former foreign secretary in the German cabinet and one of the foremost economic experts in Germany, was assassinated here today. He was shot to death while on his way home to the foreign office in Wilhelmstrasse. The assassins escaped.

Dr. Rathenau was on his way to his office in an automobile when he met his death. Another car, occupied by three men, drove up rapidly from behind, overtaking the foreign secretary's machine. As it drew abreast the men opened fire, discharging ten shots from pistols. One of the occupants of the murder car threw a hand grenade.

Dr. Rathenau was instantly killed. It had been reported at first that there was only one assassin. Chancellor Wirth revealed that Dr. Rathenau knew his life was menaced.

"The foreign secretary was warned weeks ago," said the chancellor. "I believe this outrage was due to the unscrupulous propaganda of reactionaries and also to France's policy of hatred and suppression, which is driving the Germans to desperation. I expect that my turn will come too."

Dr. Rathenau was a popular official and democratic in his every day movements.

The death of the foreign secretary removes the chief link through which amicable dealings have been carried on between Germany and the Allies. Dr. Rathenau, more than any other German official, held the confidence of the Allied statesmen. It was through his efforts that the German government was able to enter into a formal pact with France providing for the payment of a proportion of the indemnity in goods instead of gold. He is also given credit for averting the crisis on May 31, when it appeared inevitable that France would occupy the Ruhr Basin.

Dr. Rathenau was not a politician and entered the cabinet only upon the urgency of prominent men in public life who recognized his high executive ability. Previously he was head of the German General Electric Co., one of the greatest corporations in continental Europe.

Before becoming foreign secretary on January 30, 1922, Dr. Rathenau had served as minister of reconstruction. Previously Dr. Wirth (now chancellor), had held the post of foreign secretary.

Both before and after accepting the foreign secretaryship, Dr. Rathenau represented Germany in numerous conferences with the Allies. Among his most prominent achievements during his incumbency as minister of reconstruction was the agreement he negotiated with Louis Loucheur, French minister of liberated regions, at Wiesbaden last October.

Dr. Rathenau was a strong supporter of Chancellor Wirth's policy of fulfillment, by which he hoped to placate the Allies and eventually win a lightening of the reparations burden. His amicable dealings with the French resulted in a bitter attack upon his policy in the Reichstag, but he successfully weathered the storm.

## Kiwanis Team Lost.

The Kiwanis Club baseball team minus the services of its pitching ace, Art Davis, lost to the Gas Company Sluggers at the Athletic Field Friday evening. The score was approximately 9 to 4. Kiwanis manufactured its 4 runs out of 2 hits and the oversight of the opposing fielders, although one of the hits was a homer from the bat of Pop Anson Safford. The gas company boys also acquired most of their runs through porous fielding by their opponents. The next Kiwanis game in preparation for the coming contest with Albany Kiwanis is to be played Tuesday evening at the Athletic Field.

## BIG CELEBRATION IN SAUGERTIES

Chamber of Commerce Committee of That Village Arranging for Gala Occasion on Fourth of July—Big Parade and Plenty of Music.

The Saugerties Post says: Everything portends a very successful and enjoyable celebration of Independence Day in Saugerties. Committees are striving energetically and enthusiastically to make the event one to be remembered for a long time. The Chamber of Commerce is promoting the celebration. A sure guarantee of its success.

The music will be a big feature. Doring's Band of Troy, 25 pieces, will be the main attraction. Doring's band has few equals in the state. This band will be here all day July 4th, playing in the parade, at concerts in the afternoon and at the fireworks in the evening.

There will be two other bands. Sickle's Band and Ferraro's Band and Washington Hook and Ladder Co. drum corps in the parade also. The Ferraro Band will play at the religious service in Seamon Park, Sunday, July 3, at 3 p. m. The village clergy have charge of this service and the speaker secured is the Rev. Martin P. O'Gara, the new pastor of St. Mary's Church. Everybody will be welcome at this service. Father O'Gara is reputed to be a splendid orator.

Flag raising ceremonies will occur on the high school grounds with cannon salute at 9 a. m. the D. A. R. in charge. A speaker will be secured for this part of the celebration. The parade will immediately follow, composed of the fireman and fraternal societies, floats, automobiles, etc.

A prize for the most beautiful float in line will be awarded. A prize will also be given for the best commercial float, and a prize for the best decorated automobile.

For the best appearing Sunday school in line a prize will also be given.

In the afternoon Doring's Band will give concerts and a ball game will also be an attraction. Saugerties will compete with an out of town team.

In the evening there will be a grand fireworks display. Doring's Band will give concerts before and during the pyrotechnic exhibition. It will be a great day throughout and prospects indicate the town will swarm with visitors.

## OUR DAILY PATTERN.

**A Popular Model.**  
3889—The jumper style offers many possibilities in design, finish and material. As here shown, the waist is lengthened in panel effect, over the front, and is joined to gathered skirt sections over sides and back. The dress may be of serge or jersey cloth, and the gumpes of crepe, lawn, voile or batiste.

The pattern is cut in 4 sizes: 4, 6, 8 and 10 years. The gumpes will require 1 1/2 yard of 27 inch material, and the dress 2 3/4 yards for a 6 year size.

A pattern of this illustration mailed to any address on receipt of 12c in coin or stamps by the Pattern Department. The Freeman, Rondout, N. Y. Be sure to state the size wanted.

**Catalogue Notice.**  
Send 15c in coin or stamps for our up-to-date spring and summer catalogue, containing 550 designs of Ladies and Misses' and Children's Patterns, a concise and comprehensive article on dressmaking also some points for the needle (illustrating 30 of the various, simple stitches), all valuable hints to the home dress-maker.

**KYSERIKE.**  
Kysierike, June 23.—It is said that wedding bells will soon ring in our quiet little hamlet.

Our swift road gang is enjoying a vacation during the wet weather.

Miss Elizabeth Favor and brother, Gerald M. Favor, of New Paltz are enjoying a short vacation at Cricket Hill Farm.

Mr. and Mrs. J. Louis Westbrook, daughter Wilhelmina, of the State College, and Mrs. K. W. Kerr and Mrs. Arthur O. Saxton of New York attended the graduation exercises at Hamilton College, where Theodore Westbrook graduated with honors and where he also was prize orator.

Mr. and Mrs. V. B. Cross enjoyed a fine auto trip through the New England States recently.

**The Mood of the Time.**  
"I have no doubt that you could write a very interesting book of reminiscences," remarked the admiring friend.

"I might," replied Senator Sorghum. "But I am not going to attempt any such thing. At present people are not so much interested in what has happened as in what is going to happen."

**Containers Expensive.**  
It is computed that from a tenth to a quarter of the cost of foodstuffs in the United States goes to pay for crates and other containers that are thrown away instead of being used a second time.—Brooklyn Eagle.

## UP-STATE AND DOWN-STATE.

While a percentage of people outside of New York City, particularly in sections usually mentioned as up-state, may not give much thought to what is meant by Port Authority, on the supposition that it is something confined to New York City, the fact is the Port of New York has close relation to rural communities, and with the enlargement of that harbor up-state will get a definite benefit beyond any question of doubt.

Terminal facilities, or the lack of terminal facilities, in New York harbor have been under discussion for years. There has been a shortage and the question of dock privileges has come up for the most caustic criticism; charges that favoritism was shown and that graft played a part. The result has been perishable goods shipped from up-state or elsewhere could not be marketed properly or to the advantage of the producer or consumer.

Illustrations have been given as to the wide difference in cost between the point of shipping and the selling point of a single article. It has been amazing, and there has been no doubt raised as to the statement of fact. The explanation is that the Port of New York is not ample to take care of the business that wants to go there, even local business, not alone the matter of importing and exporting as to foreign trade.

Governor Miller saw what an enlarged port would mean to the people of New York State, and he saw that with the barge canal in operation and the port of New York equipped with proper storage it would not be a local matter so far as New York City is concerned, but would be a benefit to the people of the whole state. It is held that with needed requirements produce could be put in the hands of the consumer in New York City at a figure perhaps less than it costs now to get it to the docks. Produce is raised up-state and eaten down-state, and more that is raised up-state will be eaten in New York if it can be handled in the right way when it gets to the biggest market in the world.

As governor of the whole state and as an up-state man as well, Governor Miller realized that the port of New York was not a local matter, but something from which the people of every section would derive some actual benefit. The more the people learn about Port Authority the more convinced they will be that it is a problem statewide in importance and more than just a local improvement for New York City.

The vagaries of the Democratic mind are illustrated by a bill introduced by a southern senator to establish a "national hydraulic laboratory" in Washington, and making an initial appropriation of \$200,000 for the purpose. The new bureau would conduct research into river hydraulics and the causes of floods. The files of the Geological Survey, the Engineer Corps of the Army, the Mississippi River Commission, the Reclamation Service, and other Federal establishments are replete with every conceivable form of data on river flowage and floods. If there is anything lacking, those bureaus have ample power to make an investigation and gather the information. The administration policy is to curtail useless Federal activities and stop all overlapping of duties, yet this enterprising Democrat would tap the Treasury at another point and let forth a new flood of the taxpayers' money.

And now they are fingerprinting five-day-old babies in lying-in hospitals to prevent mistakes of identity which sometimes occur. The acknowledged infallibility of fingerprinting calls attention to the stupendous fact that no human being in either his physical or mental make-up is or has been exactly like another, even among all the countless billions who have lived and passed from mortal life.

Senator La Follette is reported to be disgusted with the Supreme Court because it does not agree with him. The Supreme Court has an idea that it was intended for the Constitution to be interpreted so as to curb execu-

tive and legislative power, but La Follette is convinced that the power of Congress should never be limited at all.

## Burroughs Nature Club Notes

What do you want to know about Nature Subjects? Send any questions of general interest to the Nature Notes Dept. of this paper, enclosing a self-addressed and stamped envelope for reply.

Can You Answer These Questions?

1. What is the biggest animal that ever lived?  
2. Do any insects take care of their young?  
3. Is it possible that I saw a belted kingfisher in a city park?

Answers To Monday's Nature Notes.

1. How far south does the Canada goose go for the winter?  
Some members of the tribe go no further down than the inlets along the coast of Virginia and the Carolinas. Others go to Texas and Mexico, along the Gulf shores.

2. Is the buffalo exterminated?  
Not as a species, though really wild herds are negligible, compared with their natural estate. The Canadian G. W. has a good wild herd on protected land in Alberta, and we have smaller ones in Kansas and South Dakota. The New York Zoological Society maintains a small but healthy herd just out of the city, demonstrating that under proper management wild buffalo can be bred in absolute captivity. This herd has actually furnished the nucleus for the two Western herds.

3. What can I feed a pet chameleon?  
We have constant inquiries for this, and recently had a letter in reply to one of our answers, supplementing it helpfully. We listed the chameleon's food as flies, cockroaches, not earth worms, and plenty of drinking water, supply to be sprinkled on a lettuce leaf or celery top. A correspondent writes she has found minute shreds of liver will be taken. She fed them on a toothpick and poked them down the chameleon's throat. Dangling them on a thread might teach it to snap for the food as in nature. Another correspondent has had success with condensed milk fed in drops.

## EDUCATION BOARD REGULAR MEETING

Petition to Restore Fourth Teacher at School 1—Veteran Grade Teachers Ask More Salary—School & Playground to Have Further Meeting Next Meeting.

The board of education held a regular meeting Friday night and in addition to adopting its budget for the year 1922-23 transacted considerable other business.

Wants Teacher Returned.

A petition was received from the Parent-Teachers' Association of School No. 1, asking for the re-statement of a regular teacher in that school. Prior to 1919 the board employed at that school one principal and three assistants, who taught ninety-eight pupils who were studying in the eight grades. In January, 1920, one teacher was taken away from the school and the work has been continued by three teachers with practically the same attendance. The teachers have to give extra time at noon and after school hours and the P. T. A. believes it is not only a physical impossibility to continue this but is not fair to the school. A delegation of three members of the P. T. A. of School No. 1 was present and one of the members stated that the position of the association was set forth in the petition. On motion of Trustee Van Wagoner the matter was referred to the teachers' committee.

Fight on Education Bills.

A communication was received from the Associated School Boards and Trustees of the State of New York calling attention to the advisability of the Kingston board of education joining the association. The association is carefully laying out a program of legislation to be introduced next winter in the legislature, including a bill to secure the financial independence of school boards, local option to meet local conditions, to place all health and medical inspection under school boards and various other things. The association believes there will be a decided and aggressive fight against these measures and that the only way to protect the local school boards is by cooperation through membership in the association. A motion by Trustee Gill to table the resolution was carried.

Want Substantial Recognition.

A petition was received from the grade teachers who have served twenty-five years or more, asking the board to recognize their services in a substantial manner, beginning September 1.

There was some discussion regarding the petition and it was explained that any increase could not be included in this year's budget which had to be adopted at the present meeting in order to be filed with the common council according to law. Aside from the matter of contracts already signed, the board has filed its schedule of salaries with the state education department as provided by law. This schedule has a maximum and a minimum, with a graded scale of increment, and it was explained that the increase could not be granted without changing the entire schedule.

Trustee Brinnier moved that the petition be granted, and said the teachers ought to get any recognition they were entitled to before they die. The motion was not seconded. Trustee Van Wagoner moved that the petition be referred to the teacher's committee, which was not seconded.

Trustee Gill moved that the petition be denied, which was seconded by Trustee Van Wagoner. The discussion quoted followed, and Superintendent Michael in answer to a question said the increase would add \$5,180 to the tax budget. Mrs. Thompson said some of the teachers were teaching under difficulty and believed it should be granted if possible.

The motion of Trustee Gill to deny the petition was lost by the following vote: Ayes—Trustees Gill, Van Wagoner, Flemming—3; Noes—Trustees Brinnier, Kearney, Mrs. Betz, Mrs. Thompson—4. Trustee Van Wagoner moved to refer the matter to the teachers' committee which was amended by Trustee Brinnier that the committee report at the next meeting of the board and carried.

Bills and Pay Roll.

The finance committee reported the June pay roll amounting to \$18,703.05, and audited bills amounting to \$1,593.65, which were ordered paid.

The finance committee also reported the annual budget, which appears elsewhere in The Freeman, and it was adopted.

To Refund Bonds.

The finance committee offered a resolution providing that \$12,000 of the \$25,000 school bonds falling due April 1, 1923, shall be refunded \$10,000 to fall due April 1, 1927, and \$2,000 to fall due April 1, 1932, and directing that the resolution be transmitted to the common council. Carried.

School Calendar Adopted.

Superintendent Michael reported the school calendar as prepared for the school year 1922-23 and it was adopted. It is published elsewhere in The Freeman.

Re-elected Library Trustee.

On motion of Trustee Gill, Charles M. DuBois was re-elected trustee of the Poughkeepsie Public Library for the term beginning June 23.

Will Discuss Playground Petitions.

The special committee composed of Trustees Van Wagoner, Mrs. Thompson and Mrs. Betz, to whom had been referred the petition that the board provide for the removal of some of the playground paraphernalia which formerly was at Kingston Point Park to the grounds of School No. 6, reported that they were unable to agree. The petition for establishing a playground there was signed by residents some distance removed from the vicinity; the protest was signed by those living in the vicinity. It was agreed that no playground ought to be opened there unless properly supervised, and the board is unable to provide supervision. On motion of Mrs. Thompson, the matter was laid on the table until the next meeting.

## A BUSINESS COUPE OF STEEL

Dodge Brothers offer to the business public of America an entirely new principle in Coupe body construction.

From framework to window moldings the body is built of steel. It is the first all-steel closed car ever marketed. This design anticipates every possible requirement of commercial travel. It insures unusual quietness—unusual grace—unusual stamina. It has made it possible to give the Coupe that same lustrous baked-on enamel finish for which Dodge Brothers open cars have long been famous.

The upholstery is of genuine leather—leather that will wash and wear. The seat is wide and comfortable. Carrying compartments are accessible and spacious. The car is equipped with a heater, dome light, window levers, windshield cleaner, cord tires, Yale door locks, and every other appointment necessary to the owner's comfort and protection.

Built inside and out to withstand the wear and tear of everyday use, it retains the same lightness and beauty of line which you are accustomed to look for in Dodge Brothers cars.

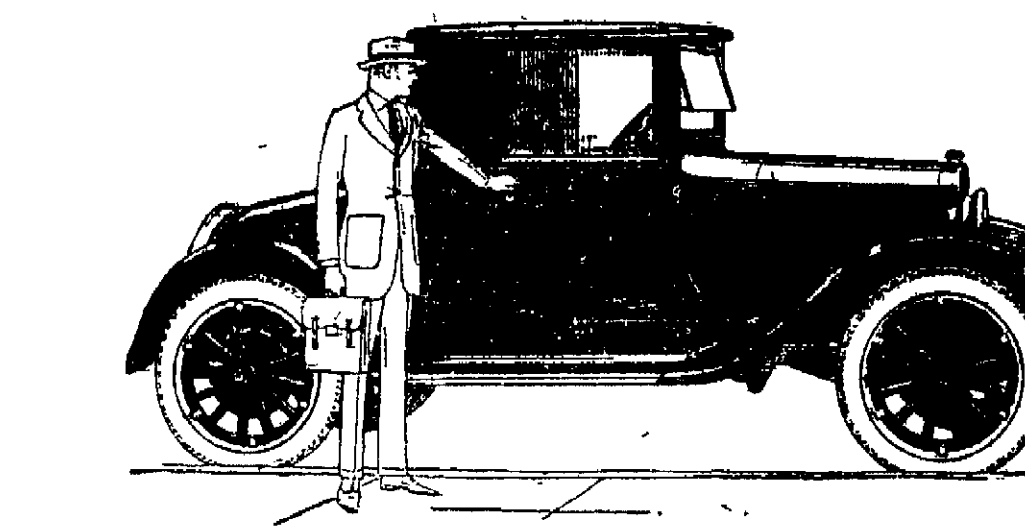

It is the Business Coupe which business people the world over have been expecting—from Dodge Brothers.

The price is \$2980 f. o. b. Detroit

PHOENICIA.

Phoenicia, June 24.—At the M. E. Church on Wednesday evening, June 23, at 8 o'clock, new time, Harry Dodge and the Masonic Quartet of Kingston will give a high class concert. The concert is given through the courtesy of W. H. Rider of Kingston. The proceeds will go toward the organ fund. A variety of refreshments will be for sale at the close. All are invited to attend. A silver collection will be taken.

Origin of "Showing a Leg."

"Show a leg" is said to be an old naval phrase, which originated in the days when women were allowed to live on board warships. When the boatwain piped the call to wake the men he shouted "Show a leg, or the purser's stocking." Sailors do not wear stockings, so when the boatwain saw a stockinged leg sticking out from the hammock he knew it belonged to a woman, and she was allowed to stay in bed later.

## NEW PEDAL CONTROL ON ELECTRIC AUTO. IS EXHIBITED IN NEW YORK

Miss Helen Hoffmann is shown in the photograph demonstrating the new pedal control on the latest thing in electric coupes. Note the round heel pedal close to the seat. By shifting from the forward control, on which he foot is placed, to the heel pedal she can reverse at once, with no danger of stripping gears.

## NOVEL DEVICE RELIEVES AUTOIST FROM BOTHERING WITH AIR HOSE

The device shown in the photograph relieves the autoist of the job of rolling up the air hose after filling his tires at the corner service station. The long lever and heavy weight take care of the hose and one fills his tires; lets go of the hose; and the machine does the rest.

### "Pheasant Shell"

This name is given to the shells of a gastropod mollusk of the family Turridae, which are much valued for their beauty, suggesting by their gorgeous metallic tints the plumage of pheasants.

### Wealth Has Its Drawbacks.

It would be a considerable consolation to the poor and discontented, could they but see the means whereby the wealth they covet has been acquired, or the misery that it entails.—Zimmermann.

### Message in Vogue in Japan.

Massage is much in vogue in Japan and a notable feature of any Japanese town toward evening is the blind masseur as he walks along, announcing himself with his peculiar whistle, in search of work, which he can always find in plenty.

### The Record for Butts.

The most remarkable shooting at a target performance is that of Colonel Gibbs at Blisley, who on July 23, 1908, fired 37 shots dead on the bull without a break. The range was 500 yards.

## YOU AUTO KNOW

That the squeak which frequently develops in a new car—an annoying little sound which seems now to be in one section of the machine and now in another—is usually due to lack of proper lubrication of the spring shackles. The best way to overcome this difficulty is to have the car jacked up, all the shackles plus driven out and the passages which the grease is intended to travel thoroughly cleaned.

Ordinarily, it will take some little time to attend to this, but the operation is well worth while because, until the grease passages are opened so that the lubricant can come directly in contact with the joint, the squeak will grow steadily worse—and, as every owner knows, the only thing worse than a squeak is a balky engine. Heavy grease should be applied directly to the bolt when this is slipped back into place and, in nine cases out of ten the elusive squeak will disappear immediately.

## REVERSIBLE SEAT IS LATEST CONVENIENCE

Occupants of Automobile Can Face Each Other.

Particularly Handy When Lunching or Attending Outdoor Events and for Similar Purposes—Plan of Construction.

An eastern motorist has added something of novelty and convenience to his closed car by hinging the front seat so that it can be reversed to face the rear seat, when lunching in the car, attending games, and for similar purposes.

To do this it was necessary to remove the seat back altogether and upholster the lower edge as well as the rear edge of the seat. The hinges, which are also the seat braces, are made of wrought iron and are of equal length; they are padded and

covered with material to match the upholstery of the car. L-shaped brackets are riveted to each side of the seat and back, as indicated in the drawing, for attaching the hinges. The seat is reversible by pushing at the top, in the same manner as the seats in a trolley or railroad car are reversed.—G. A. Luers, Washington, D. C.—In Popular Mechanics Magazine.

### Stools Another Nest.

There are a few birds that lay their eggs in the nests of other birds. The cuckoos of the Old World have this habit, while with us the cow-bird is the guilty one. In either case only a single egg is deposited.

## K. H. S. CHAMPION FOR THIRD TIME

Caunitz's Team Down Poughkeepsie  
High 6-4 and Retains Cap for  
Third Consecutive Season.

With the rancorous cheers of the  
Kingston amalgamated rooting club  
ringing in their ears Kallio's blue-  
stockinged protestors went down to a  
6-4 defeat at the hands of the  
Kingston High School team. King-  
ston has reached the top rung of the  
championship ladder for the third  
consecutive season and each year  
Lester Caunitz has right-handed his  
path to victory. Friday the Maroon  
captain pitched a glorious game of  
ball, registered eight strike-outs,  
four of them consecutive, and feel-  
ingly gave the Poughkeepsians six  
hits. A thrilling seventh inning rally  
when the Bridge Citizens led with  
the score standing at 4-1. The  
cheering sections raved. Riordan,  
the then Blue and White pitcher,  
until he nodded at them from dizzy  
altitudes. Then Baker was put on  
the mound and he continued to walk  
the Kingstonians.

With Poughkeepsie at the bat the  
first inning started gloriously for  
the locals. Shorter, Snyder and  
Gunn the first three men in the bat-  
ting order succumbed to the right-  
handed onslaughts of Uncle Lester.  
Kingston trotted in for an inning  
and Riordan walked the first man,  
Stumpf. On Riordan's error Muller  
attained first base, Stumpf advanced  
to second. Muller was put out by  
the first baseman and Hoffman hit.  
Shorter grabbed the liner, tagged  
Stumpf and threw to first. Hoff-  
man was out. In the second inning  
Caunitz struck out the fourth of his  
consecutive strike-outs and the next  
two men went on pop flies to Vogt  
and Bott. Sad to relate the locals  
also pulled the same stunt during  
their inning, the only blot on their  
careers, since they aped Poughkeeps-  
ie. In the third inning Poughkeeps-  
ie did not pull anything unusual,  
except that two men gained the first  
sack. At this epoch, the rest of the  
third, the Kingstonians threw away  
their first chance to score when  
Caunitz leaned on one of Riordan's  
straight balls for a two bagger.  
However, the next two men failed  
him and the locals took the field  
without having tallied. The next  
inning passed uneventfully enough  
for both teams.

In the fifth inning the local base-  
ball was a fair display of marbles.  
For the time being the team did not  
seem to hang together and two  
Poughkeepsie players, Hill and  
Maccabee indicated the first runs  
and two hits were scored in that  
inning. Shorter doubled and  
Maccabee hit out to center field  
where the ball was not caddied in  
time to prevent his gaining first  
base.

In the last of the sixth with the  
faint bleats of the Poughkeepsie  
goat tickling his ear drums Muller  
selected his stick, swung it wickedly  
a few times at Riordan, and at  
length drove clean and hard off to  
the outermost reaches of center field  
for a three bagger. Muller scored  
on a clean steal from third base to  
the plate. This heartened the high  
school lads and they betook them-  
selves to the field with a new reat-  
erident the next inning. Resultant,  
the top of the opposing batting order  
fanned most vehemently. Then the  
lucky seventh Mike Howard ad-  
vanced to the plate where he made  
"fences" at Riordan and was walked  
to first. Having arrived at first he  
promptly stole second. McLane  
singled and was apparently out, but  
due to Hill's timely error at first he  
was safe. Howard deemed himself  
worth of another stolen base and so  
reposed on third. Caunitz, the next  
batter, fanned. Stumpf, the next  
man, fied out to Shorter. Thus  
with two outs and a man on third  
and second, McLane meanwhile hav-  
ing stolen second, Muller entered  
the box. Blair singled and Howard  
pranced homeward. McLane ad-  
vanced to third. Joey Hoffman was  
walked, and the bases were full  
again. Vogt was walked and Mc-  
Lane was forced home, with the  
bases still full. Bott then drove in  
the two runs which gave Kingston  
a one run lead. His drive was fast  
and swung down the third base line,  
somehow it befuddled the left fielder  
while Muller and Hoffman pulled  
out for home. Baker then indulged  
in a little wild pitch and while com-  
ing home Vogt was declared out on  
a catcher to pitcher play.

In the last of the eighth McLane  
scored another run. The Pough-  
keepsians did not play out the ninth  
with even the semblance of a fight-  
ing spirit in them.

There was a large, appreciative  
attendance at the game and the  
management wishes to thank each  
one who cheered the Kingston High  
School nine to their third consecu-  
tive winning of the Central Hudson  
Valley scholastic championship.

## ELKS' BENEFIT SMOKER TUESDAY

On Tuesday evening, June 27, at  
the Elks' Home, a benefit smoker  
and entertainment will be given un-  
der the auspices of the local order  
of Elks. Plans for the coming show  
have been under way for some time  
and the committee in charge have  
secured the following entertainers:

Charles McCarthy and Kid Law-  
rence, featherweights.  
Young Brown and Kid Hutton,  
featherweights.  
Joe Coffey and Featherstone,  
lightweights.  
Vince Coffey and William Rosdell,  
welterweights.  
Kid Carter and Jack Eagan,  
welterweights.

The foregoing boxing program  
should prove a hummer as the city's  
best in the boxing game will be seen  
and the feature bout with Kid Car-  
ter in the ring is expected to prove  
worth while. Carter is one of the  
promising contenders for the cham-  
pionship belt in the welter class and  
has recently returned from Eng-  
land, where he fought a number of  
stiff opponents. In recent years  
Carter has fought the following  
men, Willis, Greb, Gibbons, Gun-  
boat Smith. He also was one of the  
Jack Dempsey trainers. His oppo-  
nent for the occasion is Jack Eagan,  
a boxer who is well known, having  
been in the fighting game for a large  
number of years, and who has a  
large string of victories.  
Balfe's orchestra will supply  
music throughout the evening and  
vaudeville acts will be also shown.  
A number of Poughkeepsians have  
been signed up and will appear in  
vaudeville. Cigars will also be  
listed on the program.

## TARRYTOWN CHURCH REGRETS TO LOSE THE REV. MR. BOEVE

The consistory and congregation of  
the Second Reformed Dutch Church  
of Tarrytown, in accepting the resig-  
nation of the Rev. Lucas Boeve, the  
newly called pastor of the First Dutch  
Reformed Church of Kingston, adopt-  
ed the following memorandum, ap-  
preciative of his great services at  
Tarrytown, a memorandum which  
fully endorses the high opinion al-  
ready formed by the people of King-  
ston regarding him.

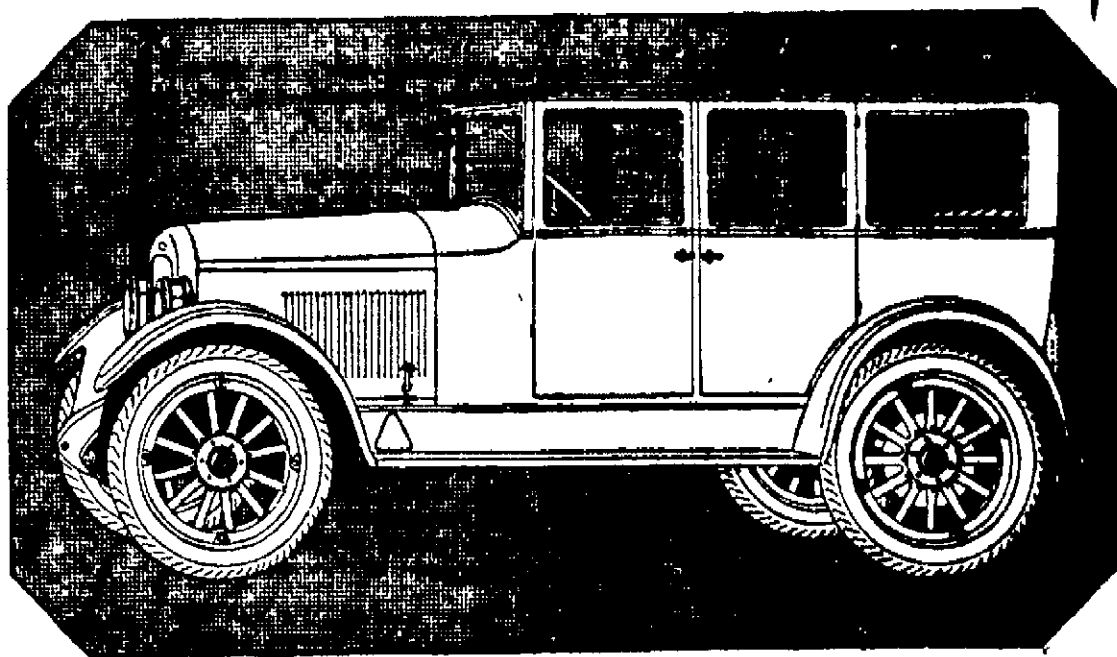

"In adopting the resolution record-  
ed above, formally accepting the  
resignation of the Rev. Lucas Boeve,  
our pastor, the board has brought to  
an end a pastorate of eight years. We,  
as members of the Consistory, feel  
that such an action should be accom-  
panied by a note in which is ex-  
pressed the regret of the Consistory  
and congregation at the severing of  
these ties, and the feeling of sorrow  
we all have at the loss of one who has  
served us so faithfully and well these  
past years. It should also be record-  
ed that at the time Mr. Boeve came  
to this church, it was in a very low  
state as to spiritual and temporal af-  
fairs, that he leaves it in a condition  
which we believe to be healthy and  
sound in each of these respects, that  
the people are united and harmoni-  
ous, and that no dissatisfaction with  
him exists. The parting of congrega-  
tion and pastor is the result of no ill  
will, and we believe is truly a case  
when the regrets on each side are  
thoroughly sincere and heartfelt. Our  
pastor feels that he is called to take  
up the larger work at Kingston and  
we hope that he may be blessed in his  
new work and that his life may con-  
tinue to grow and expand in useful-  
ness.

"This note would not be complete  
without an expression of appreciation  
of Mr. Boeve as a man. In his daily  
life and in his associations with the  
life of this church and this communi-  
ty, he has demonstrated in a marked  
way the principles of a true Christian  
gentleman—he has gone in and out  
among the people here doing good to  
all whether members of our congrega-  
tion or not, has won for himself a  
place of great influence and marked  
respect, and as he leaves Tarrytown,  
those who feel regret are far more  
than the number of our congregation.  
Mr. Boeve has the rare quality of  
never shirking work or ever consider-  
ing any task too much trouble. He  
has always been an untiring leader  
and an inspiration to others to do  
with the men of the village, no min-  
ister commands more respect than  
Mr. Boeve and his work among the  
men has been most successful. With  
the children of the church, Mr. Boeve  
has been particularly successful and  
we cannot commend him too highly  
for the earnest conscientious work he  
has done with them. We believe the  
young people of our church have  
been guided and influenced by him  
and led into the church in the most  
natural way and that in this respect  
his work can never be forgotten.

"To Mr. Boeve we extend our sin-  
cere thanks and appreciation for his  
faithful work and our regret at his  
leaving us. To his family, too, we  
would express our sense of loss and  
our regret at losing them. Altogether,  
the relations of this Consistory and  
congregation with Mr. Boeve and his  
family may rightly be regarded as de-  
lightful."

Sacrifice hits: Hoffman, Allen and  
Stumpf. Three base hit Muller. Le-  
gal at bats scored against pitcher,  
Caunitz, 11; Riordan, 7; Baker, 3.  
Bases on balls off Caunitz, 1, off  
Riordan, 5; Baker, 4. Number of in-  
nings pitched: by Caunitz, 9; Riord-  
an, 7-2-3; Baker, 1-1-3. Wild  
pitches: Caunitz, 4; Riordan, 1;  
Baker, 1.

## A 50 Horsepower, 6 Cylinder Sedan

## Four Doors—All Metal—\$1395

Here is the closed car that you have been  
waiting for—an all-metal, six-cylinder, 50  
horsepower sedan at the astonishing price  
of \$1395 f. o. b. Detroit.

The New Jewett Sedan is of all metal con-  
struction with four tightly fitting doors that  
close with snap and precision.

The interior is as beautiful as Artist-  
Designers could make it. There are wide,  
thickly upholstered seats for five full  
grown adults.

The frame, clutch, transmission, drive shaft  
and rear axle are perfectly coordinated units  
—as strong as tested metal and fine crafts-  
manship can make them. That means long  
life, endurance and true economy.

Need we say more about this remarkable  
motor car value. See it at the first oppor-  
tunity—ride in it—drive it and you will  
instantly realize that it is the greatest  
closed car opportunity ever offered to  
the public.

## "millions now living will never die"—Judge Rutherford

There is special significance in the troublous  
days through which the world has passed since  
1914.

Out of these events will come greater develop-  
ments, involving all nations and peoples.  
The Bible accurately foretold present condi-  
tions.

Its prophecies regarding the future will be ful-  
filled with equal exactness.

The outstanding hope held forth in the Scrip-  
tures is the hope of eternal life, and the reali-  
zation of this hope is now at hand.

It will be accompanied by all that the heart  
has longed for—health, peace, and happiness.  
God's purpose in giving man a revelation of  
His Plan was that mankind should use it, un-  
derstand it, and appreciate the principles it sets  
forth.

An understanding of the Bible broadens one's  
view and inspires cheerfulness and optimism.  
Prophets of old have described with glowing  
tongue the glories of the bright day that is now  
dawning.

Prince George of Serbia, son of the late King Peter and elder brother of King Alexander of Yugoslavia, has been accused by M. Paclitch, Jugo-Slavian premier, of writing menacing letters. The premier asked the French government to restrain him, as he has been living in Paris for years, having renounced his rights to the throne in 1909. One view is that he is a member of the Serbian "Black Hand," which is credited with conspiring against the "White Hand," which favors King Alexander.

### UNION CENTER.

Union Center, June 23.—Miss Hazel Wells spent a few days the past week at Schenectady.

Mildred Wells of Kingston is home for a few days on account of illness. Dr. Ross is the attending physician.

Jess Fitzgerald had the misfortune to fall and break his nose and receive several other injuries Tuesday, while working on a building for Dr. J. A. Decker at Port Ewen.

George Soper has purchased a Ford car.

Tony Simon has accepted a position at Kingston.

Smed Zimmerman entertained friends from Kingston Sunday.

Mr. and Mrs. Deyo Atkins of New Paltz visited J. Fitzgerald and family the week end.

### They Resist Decay.

The Northwest Indians nearly always make their totem poles out of western cedar, but this choice was probably due more to the fact that the wood is easy to work and is extremely durable, rather than to its fragrance, says the American Forestry Magazine of Washington. It may be taken as a very good general rule that woods that are scented are resistant to decay and insect attack, and have good cabinet qualities.

### Salt May Be Cause of Cancer.

Dr. Joseph De Stephano has recently advanced the theory that the use of salt may be the cause of cancer, and he quotes some instances that seem to indicate that such is the case. Some other physicians, however, take issue with him and the statement is made that in Italy where salt is eaten in great quantities there is very little cancer.

### Life Calls for One's Best.

To make a success of life you must be always at it with your eye on the job. Diversion will stimulate far more intensive effort, but the effort itself must have no diverting influence. "This one thing I do," says the apostle, "in doing it I win. Keep your eye on the ball and put your best into the game."

## FOR FANCY SUITS

Embroidered Woven Serges Are About to Be Put Forward.

Extreme Novelties Chiefly for Skirts With Plaids and Combined With Plain Material.

In London embroidered woven serges are about to be put forward for fancy suitings and three-piece costumes. These extreme novelties are to be used chiefly for skirts with plaids, and combined with plain material which is sold to match. The embroidery patterns for colored stripes run vertically four inches apart on grounds of navy or black. The pattern is woven of silk threads in four or five colors, combining purple, silver, green, gold, yellow and rust. The pattern itself shows either cluny lace designs or simple geometric effects, the different colors running in stripes, leaving the plain ground to show up the outlines.

For next winter's coatings the steady run of plain velours will be varied with a series grooved in Jacquard pattern in plain colors. These heavyweight cloths come not only in the flowered grooves, but in grooved stripes and fancy checks. Browns predominate in this series, the range of Jacquards being fawn, mole, beaver, silver, cinnamon and gray.

Mixture velours are used as elsewhere, and plain velours with a shadow stripe in contrasting color. The velours collection contains many checks, the most interesting being the very large shaded checks in several degrees of the same color, designed for coatings.

The gabardine series is made interesting by the introduction of striped materials, bands of rich colors on a neutral ground, such combinations as fawn, gray, slate and beaver, striped with blue, lemon, gold, poppy and black, each band containing black and two colors.

### IS BEADED IN DAISY DESIGN

When a French voile in rose is beaded in a daisy design, it becomes a charming afternoon frock. The model wears a hat of rose straw with clusters of frosted grapes.

### FILET MESH OF HEAVY CORD

New Lace Which Promises to Be Well Received, Closely Resembles Fish Net.

A lace which is new and has all the requisites for finding wide acceptance is a filet mesh of heavy cord, which resembles nothing so much as fish net. A regular filet pattern is woven by hand into this mesh in wool yarns, and the result is a most effective flouncing of bands for afternoon frocks. This filet is being shown in both cream and cerise and in all widths but is particularly sought in skirt widths.

This filet, made with candle-wick cotton instead of wool, also is finding a very wide demand for household uses. In twelve to sixteen-inch bands it is used for table runners, dresser scarfs and similar purposes. Fringe, either in finished widths or hand-knotted from candle-wick cord, decorates the ends of these scarfs.

### NEW FAN FOR THE EVENING

Two-Yard Tulle Scarf Is the Latest French Wrinkle in Way of an Accessory.

Without a stunning fan, an evening gown is as incomplete as would be a rainy day costume without an umbrella. Fans grow more and more gorgeous and the latest French wrinkle is a two-yard tulle scarf, attached to the outer stick of a big feather fan—at the right-hand side of the fan. Spread open, the huge fan is held in the right hand and the tulle scarf drops down over the skirt in a long loop which is caught up and twisted around the right arm. Or the tulle may be thrown around the shoulders and the fan held in the hand in some graceful position or other. It takes a little more practice to be able to manage fan plus tulle scarf effectively—but the result pays.

### Prone Attention.

"A staggering right to the jaw to the boxing ring is perfectly consistent with brotherly love," says Father Deagan. Some boxers go even further in showing affection. In a recent heavyweight affair, the contestants hugged each other all the time—London Opinion.

## ROSE CLOTH, CREPE DE CHINE

Old rose cloth and white crepe de chine combine to make this attractive frock, of which the distinguishing feature is the plaiting attached with a buttonhole stitch of rose wool.

### FAD FOR COLORED BRACELETS

Bone or the Carved Ivory Armbands in White or Tints, Continue to Hold Favor.

Jewels match the costume to a marked degree. The fad for wearing many bracelets continues, the bracelets of bone or carved ivory in white and colors. A stunning afternoon costume in dull tomato chiffon was seen recently, the rich tone of the tomato set off by bone bracelets in dull red, green, orange and deep purple. Charming bracelets from France come in black, a delicate, almost transparent green and orange, with gay little elephants romping about their surface. The elephants are painted in white on the black bracelets and in black on the colored ones. Other arm trinkets show running little ivory or metal figures of animals and men hung on slender gold or silver chains. For the woman who travels much, or happens to be in places where she can pick up these trinkets, it is interesting to gather odd little pieces here and there.

Another item in keeping with the matching accessories is the vogue of the fancy glove, which marks a revival of a court style from the days of the Medici and Valois rulers. Many of the effects are much the same as they were then, though the use of delicately scented perfumes in the making of the glove has been discarded.

### LATE AND CUNNING STYLES

Plaisted Plaid Skirt and Bloomers; Blue and White Swiss Dress; Chambray Frock.

A practical little outfit, combining Scotch plaid gingham and plain color chambray or white voile or handkerchief linen, shows a plaisted skirt of the plaid fabric with plaid bloomers, and a plaid coat or white blouse banded in the plaid.

A smart little blue and white dotted Swiss dress has wide-flared cuffs, a cape collar and sash belt of white organdie, the frock having bloomers of the Swiss. A pale blue chambray frock cut on straight smock lines is trimmed with embroidery in peasant colorings and has self-fabric bloomers.

### BIG COLLARS ON NEW CAPES

Wide, Fat Roll of Satin Stuffed Becoming to Long, Slender Necks; Smart Handbags.

Some of the new capes have a veritable bolster for a collar. A wide, fat roll of satin stuffed so that it will remain round and plump is actually becoming to long and slender necks. Other capes have upstanding roses of soft silk as collars. These flowers are so big and so closely set on the neckband that they form a ruche. Most of the new capes, as well as the new coats, have the high, standup collar. It is smart to have a handbag in some shade contrasting with your costume. A dark suit, for example, cries aloud for a scarlet taffeta handbag. A tan suit needs a bag of periwinkle blue. A jade frock or cloak is well set off by a bag of white. Often, the bag and hat match in shade. Sometimes bag, hat and stockings match, and this is the ultimate of smartness.

### Lace Effects in Silk.

Knitted dresses are becoming less confined to sport types, and both in silk and in wool they have been seen in lace effects intended for informal evening wear.

### First Cremation in 1792.

The first cremation in America was that of the remains of Henry Lawrence, the distinguished South Carolina patriot and president of the Continental congress, who died in 1792, leaving explicit directions in his will for the burning of his body after death and the disposal of his ashes.

The Illinois state supreme court has upheld the conviction of William Cross Lloyd and eighteen members of the defunct Communist Labor Party, and they must serve prison sentences for advocating overthrow of the government. Lloyd is the millionaire son of the late Henry D. Lloyd, "Newspaperman," who married a daughter of ex-Governor Cross. Mr. Cross was part owner of the Chicago Tribune. Lloyd was sentenced to from one to five years and to pay a fine of \$2,000.

### ROCHESTER CENTER.

Rochester Center, June 24.—Lewis Beckerman who has been ill, is able to be out again.

A number of city guests have arrived in this place.

Alvan Van Demark has sold his horse to Charles Markle.

Thomas Churchill and family, who have spent some time with Mr. Churchill's parents, have moved in the house of M. J. Sahler.

Mrs. E. Crawford spent a pleasant afternoon at the home of Eli Crawford on Sunday.

Mal Gerseline has completed his work at Howard Gray's and is now employed by Mrs. Crawford.

Mrs. Max Beckerman is spending some time with Mr. and Mrs. Lewis Beckerman.

Mrs. Robert Osterhout of Kerhonkson called on her mother of this place on Monday.

Mrs. R. A. Churchill called on Mrs. Norman Chrissy one day the past week.

Mr. and Mrs. Ralph Markle and children have moved in the house of Jack Mertine in Mombaccus.

John Bush has his house almost completed and expects to have it filled with city guests soon.

Mr. and Mrs. Luther Chrissy moved to Kerhonkson Saturday.

Mrs. E. Crawford spent the past week-end with her daughter, Mrs. R. Osterhout, in Kerhonkson.

Norman Chrissy, who expected to go to Brooklyn this month for an operation on his eyes, will postpone his trip until the early autumn.

Those from this place who have employment at W. Davenport's of Accord are Harold Terwilliger, Ivan and Harry Chrissy and Ben Lemunyun.

Our district school closed on Friday, June 16.

### One Short.

Children's minds have childish worries. A little girl, on hearing that a baby sister had just arrived, making six children in the family, complained: "Oh, dear, now one package of gum won't go 'round.'"—Boston Transcript.

### Heat!

"I don't have ter preach long in de winter time," said Brother Dickey. "Wen de church stove gets red hot I jes calls de attention of de sinners ter it, and dat's all de preachin' what dey needs!"—Pittsburgh Gazette-Times.

### No Singer.

The house-sparrow, which, though allied to singing finches, never sings when in natural conditions, has been converted into a songster by bringing it up in company with piping bullfinches.

Mrs. Anna Dickie Oleson.

To the country she may be Anna Dickie Oleson, but to the 8,000 inhabitants of Colquett, Minn., she will always be Mrs. Peter. Oleson, though even her husband, superintendent of schools, insists that "Anna Dickie" be substituted for "Mrs. Peter" when she is referred to in the newspapers.

For this charming little thirty-six-year-old woman, the mother of a fourteen-year-old daughter, Mary, has won the Democratic nomination for the U. S. Senate, with only \$500 campaign expenses. She is the first woman to win the nomination from a major political party. Opposing her in the November election will be Frank E. Kellogg, Minnesota's junior senator, who won the Republican nomination.

### Why the "Horse" Chestnut?

An English writer says the horse chestnut has no connection whatever with the horse. Evidently he has not thoroughly examined the tree, for wherever a small branch of cluster of leaves starts, there is the shape of a horse's hoof, even to the print of the nails used in putting the shoe on. It is plainly seen when one knows it is there.

### KERHONKSON.

Kerhonkson, June 23.—On account of the rainy weather the audience which assembled for the Children's Day exercises was not as large as usual, but was greatly enjoyed. Recitation and songs by the children and music by the choir. The church was beautifully decorated by the ladies of the Sunday school.

The strawberry festival was well attended Saturday evening. Arthur Decker has a baby boy. Mother and baby are doing nicely. Mr. and Mrs. Earl Sickler and Mr. and Mrs. Clarence Cross and daughter from Kingston spent the week-end with their parents, Mr. and Mrs. M. Christiana.

Arthur Lefever from Newburgh is visiting his parents, Mr. and Mrs. W. Addis.

Miss Hazel Mertine was in Glenville Wednesday.

The M. E. Church will hold a Fourth of July celebration.

### Play Ball and Dine.

Members of Kingston Council, Knights of Columbus, have everything prepared for the reception of the Peekskill excursionists Sunday at their rooms and a gala day is expected. Following the ball game a buffet lunch will be served, to which the Colonial baseball team is invited as well as their opponents. The Peekskill team has a very good lineup, including a number of college men and a good game is looked for.

Jimmy Wilde, the British flyweight, has not retired from the prize ring, as reported. He is planning a trip to America again next winter.

Wilde has fully recovered from his fall from a horse that laid him up some time ago. He looks in excellent condition and says he weighs 112 pounds, but can still fight at 108.

He would like to meet Jack Sharkey if the New Yorker can make under 115 pounds for him. Sharkey started on his way to fame and fortune a year ago by outpointing Wilde in a no-decision bout in the Middle West.

The Little Welshman is as popular as ever in London despite his knock-out at the hands of Pete Herman. Herman left a very bad impression behind him because of twice failing to make weight for lighter opponents in London. Herman, however, is expected to figure in some interesting bouts shortly.

Hugo Bezdek, who coaches baseball at Penn State college, says he has a coming player in H. L. Koehler.

Manager Mack of the Moline Three-ers club has sold Third Baseman McCue to the Philadelphia Americans.

Bill Bariden, veteran major league catcher, has been made manager of the Atlanta Southern association team.

The Detroit American club has recalled Johnny Mohardt, who has been playing with the Denver Western League club.

The Columbus club is out to do well financially if things keep it up. It was paid for 23,000 people in its series in Kansas City.

"Dutch" Stroebel, southpaw pitcher, Gehne, right hand pitcher, and Brown, catcher, have been released by the Saginaw team.

Denver has named its baseball team the Bears. Judging by their standing in the race the Bears are so called because they 'aint.

And they said John McGraw's weakness would be in his pitching! And now look what Jess Barnes and Phil Douglas have done so far.

The chinchilla is a small South American rodent, representing a numerous family. It is prized for its fur, particularly the Andean chinchilla, whose mouse gray wool is peculiarly soft and lustrous. Ancient Peruvians used the wool in the manufacture of the fabric. Chinchilla cloth is made to imitate the fur.

Meaning of "F. O. B." "F. O. B." means "free on board." For instance, a bill of lading is marked "F. O. B. cars, Chicago," meaning that the cost of delivery of freight to the railroad company has been paid in Chicago. If it should be marked "F. O. B. Kansas City," the costs have been paid from the shipper to the freight house, Kansas City.

A dispute about the crossing of a "tee" has caused America's first golf divorce.

Many a wife can remember when her husband was as crazy about her as he is now about golf.

Jack Sharkey is no longer a member of the bantamweight class. He has graduated into the featherweight ranks.

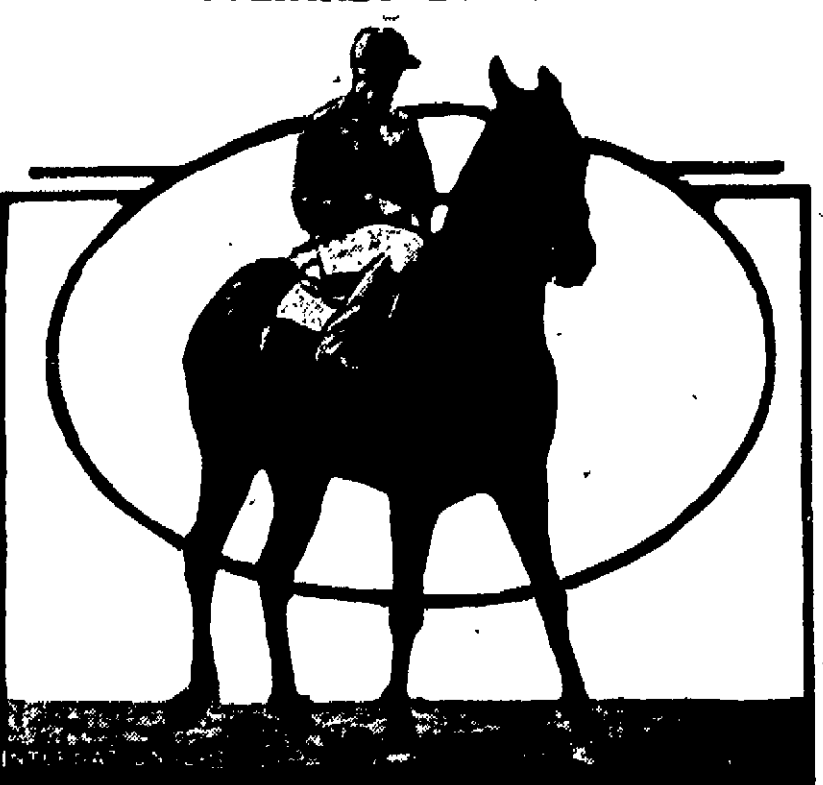

June Red, 2:05 1/4, owned by Bob Neill, manager of the Geers stable, has gone wrong and will be permanently retired.

The Beaver, 2:03 1/4, br. s., by Searchlight, 2:03 1/4, has been shipped to London. At one time the handsome pacer looked like a sure two-minute performer.

Frisco June (3), 2:01 1/4, who drove out Single G in his record-breaking race at Belmont last year, will be raced again this season by Will Fleming, one of the most popular trainers along the Big Line.

## WINNER OF KENTUCKY DERBY IS PECULIARLY BUILT RACEHORSE

Morvich, Derby Winner, is Native of California.

Morvich, the three-year-old colt which achieved fame by winning the Kentucky Derby, was foaled on the Napa, Cal., ranch of A. B. Spreckels. His sire was Runnymede, a noted English stallion, and his dam was Hymier, out of Doctor Leggo and Georgia Girl. Stocky and Short Legged.

Morvich is stocky and short legged, deviating from usual lines of racehorses, and experts believed that because of labored breathing he could not run well over the mile. They pointed out that his earlier successes were in sprint events. Doctor Leggo, his grand sire, however, was a powerful horse that made history by winning the Burns handicap at Emeryville, Cal., one day, traveling that night by train to Los Angeles and the next day

easily winning the Los Angeles Derby. From Dr. Leggo, Morvich is believed to have inherited the stout heart that carried him the mile and one-quarter in the Kentucky Derby. Morvich has won purses aggregating \$182,000. As a two-year-old his purses totaled \$115,234.

Morvich's list of victories includes the Hopeful stakes at Saratoga, \$34,900; the Pimlico Futurity \$42,750, and the Saratoga stakes, \$10,500. It was at Jamaica, Long Island, in 1921 that Morvich ran and won his first race. Spreckels then sold him for \$4,500. His present owner is Benjamin Block, a stock broker of Chicago. Avaspa and Rumquol, brothers of Morvich, also are winning races in the East.

### Splendid Tip on Golf.

Here is a bit of advice from Andra Kirkaldy, the veteran professional, at St. Andrews: "Let me say nothing is worse for anybody's golf than to slavishly copy the styles of all the better players one sees or hears about. A man must believe in himself as much as possible, making the most of his own natural style. Hardly two first-class golfers play alike. Take Vardon, Taylor, Braid and Herd. Could any four men get the same grand results by such different methods? Here is a new commandment for you: 'Keep your mind's eye on the ball.'"

## Diamond Squibs

There have been several no-hit games hurled thus far this season.

Derrill Pratt continues as the batting star of the Boston Red Sox.

Forbes Field, the home of the Pittsburgh Nationals, is to be enlarged.

In a baseball league, there does not seem anything worse than eighth place.

The Yankees' new ball park will cost \$1,200,000 and will seat 65,000 persons.

One idea of exciting news, is, who struck out with the bases full at this time last year?

Convalescent soldiers are being admitted free to all the major league ball parks this season.

Robert Veach, left fielder of the Detroit Tigers, is having one of the best seasons of his career.

Hugo Bezdek, who coaches baseball at Penn State college, says he has a coming player in H. L. Koehler.
